

# LIGHTING CONTROLS FOR EVERY CAMPUS

## SCHOOLS CHOOSE AVI-ON TO MAXIMIZE ROI

Avi-on Lighting Controls greatly benefit schools by maximizing utility rebates, annual energy savings, productivity, safety, and convenience. Additionally, it reduces installation and ongoing maintenance costs, while offering flexibility to reconfigure lighting operations in spaces using software instead of requiring re-wiring.

# FACILITY MANAGERS WANT **SIMPLE LIGHTING CONTROLS**

Quality lighting controls in educational facilities can lead to a more conducive learning environment, cost savings, improved sustainability, and better overall satisfaction for students, teachers, and staff. Classrooms, gyms, hallways, offices, and parking areas all have their unique needs, and many areas are multi-use, requiring frequent changes to lighting. Most networked lighting controls are too complicated for in-building personnel to manage themselves. Education facilities need solutions that meet aggressive cost targets, can be self-managed, and don't require IT support. Most of all, they need a system that just works.

## **Gateway-free, Distributed Control**

Gain optimal energy savings without a complicated gateway: no single point of failure, no extra cost/hassle, and no special network or panel installation

## **Flexible Control Strategies**

Mix scheduled and sensor-based controls with no gateway required

## **Secure**

UL 1376 Diamond IOT security rating + DLC 5.0 compliant for energy efficiency

## **Hassle-free Commissioning**

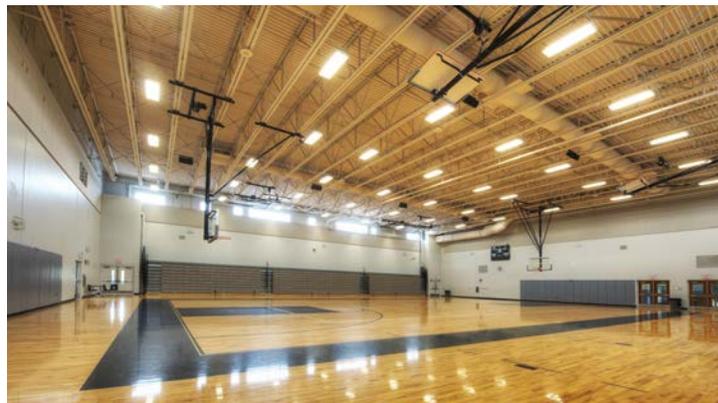

Intuitive tools enable rapid setup and changes to any combination of sensors, zones, schedules, and scenes

## **IT-friendly Solution**

Run stand-alone or use a cell modem to avoid corporate network integration

## **Control the Whole Property**

Combine indoor and outdoor lighting control in one easy to use solution

## **Color-capable Controls**

Use battery-powered wall stations or the Avi-on apps to wirelessly control CCT, circadian transitions and unique color tuning

## **Optional Cloud Connectivity**

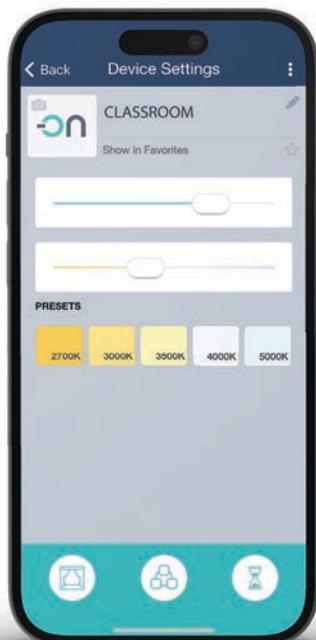

Manage user access control, device configurations, remote diagnostics, and future reporting/upgrades with a robust, utility-grade platform and web application

# CONTROL THE **ENTIRE CAMPUS**

Avi-on mesh provides worry-free wireless connectivity that grows with your needs for interior and exterior applications..

## **CCT MADE EASY**

Enhance mood and productivity of students and teachers using Avi-on Dynamic Color Tuning, which creates the experience of natural daylight in the classroom.

Direct Connect PIR Daylighting Sensor

IFAC Internal Fixture Adapter

Dimming Wall Station
