

Getting Started: Use ONE Avi-on Account to Join All of Your Locations

Want to check if a Location already exists? Go to [Avi-on.com/Contact](https://www.avi-on.com/Contact) or scan the QR code at right →

NEW! Technicians can do project startup & support for multiple projects using a single, personal Avi-on account

Do not create duplicate locations, as they cannot be combined

Location.Avi-on.com: How to Create a Location

Check if a Location already exists? Go to [Avi-on.com/Contact](https://location.avi-on.com/Contact) or scan the QR code at right →

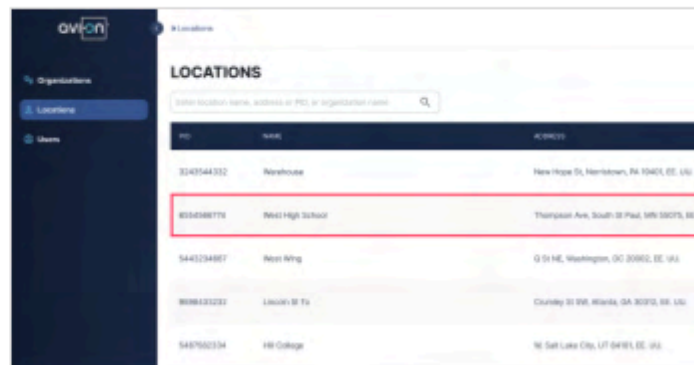

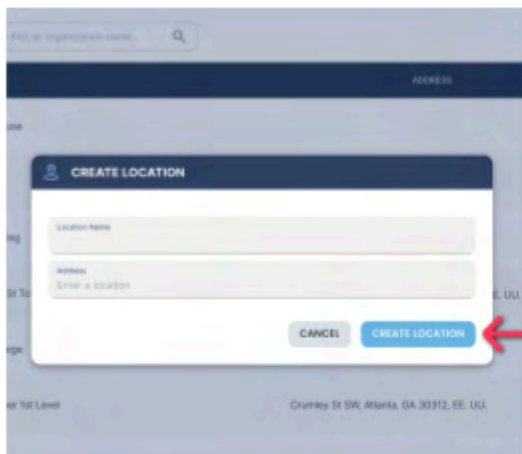

Do not create duplicate locations, as they cannot be combined

1) Use your personal Avi-on account to login at **Location.Avi-on.com**, then go to the **Locations** screen and click the **Create Location** button

2) Enter unique location name and real address. Click **Create Location** then confirm the address
If new build with no address, use one nearby. Address is used to set time zone and other important controls details

3) The Location will be listed in the Locations section. Go to next page to *Add (Invite) Users to the Location*

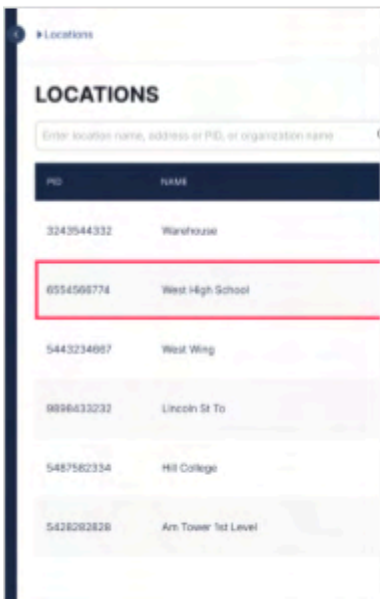

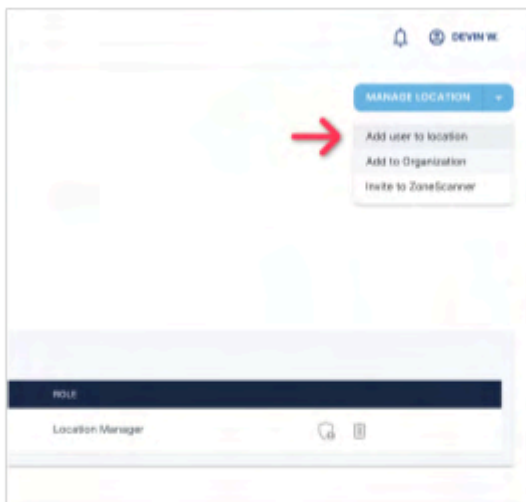

Check if a Location already exists? Go to [Avi-on.com/Contact](https://location.avi-on.com/Contact) or scan the QR code at right →

Do not create duplicate locations, as they cannot be combined

1) Login to **Location.Avi-on.com**, then go to the **Location Profile**

2) Click on the **Manage Location** dropdown (upper right corner), then the **Add User to Location** button.

3) Enter the user email, select the location role, and click **Add User to Location**.
